IT Faculty in SCERT Uttarakhand,  
National Teacher award 2019 by  
President of India and Fulbright  
Distinguish teacher Award

**Mr. Santosh Kumar Bisen**  
Faculty Bio JNV Raipur National  
Awardee, Fulbright Scholar

**Ms. Huong Vu Thuy**  
Faculty English and ICT expert in  
Assessment Tool, Microsoft IIE  
Innovator (Vietnam)

**Dr. G. Mythili**  
Additional Director, Staff Training  
and Research Institute of Distance  
Education, IGNOU

**Mr. Mohammad Imran  
Khan**  
Renowned APP GURU, National  
Awardee, Fulbright scholar

# THEME

Learning Management Systems (LMS) powered by artificial intelligence (AI) are transforming training and education through improved accessibility, efficiency, and personalization of learning experiences. AI can assess individuals' learning preferences, areas of strength and weakness, and design unique learning programs for each individual. In addition, AI algorithms can modify the content's level in real-time in response to students' performance, assisting them in grasping fundamental ideas before progressing to more complex subjects. Teachers can devote more of their time to teaching and student interaction by automating administrative activities like reporting, attendance tracking, and grading. Therefore, AI-based learning management systems (LMS) offer a revolutionary approach to training and education, giving both teachers and students access to more effective, efficient, and engaging learning environments.

## ***Benefits of AI-based LMS***

1. **Better Learning Outcomes:** Individual requirements are catered to through personalized and adaptive learning experiences, which improve material comprehension and retention.
2. **Time and Cost Efficiency:** By automating repetitive processes, teachers and administrative personnel may focus more on high-impact educational activities while saving money.
3. **Inclusivity and Accessibility:** AI tools can significantly enhance the learning experience for the Differently abled, making education more inclusive and accessible.
4. **Lifelong Learning and Skill growth:** AI-based Learning Management Systems (LMS) can provide customized learning pathways for ongoing professional growth, assisting people in maintaining the relevance of their abilities.
5. **Feedback and Assessment:** Students are better able to comprehend their progress and areas for growth with the use of automated assessments and real-time feedback, which encourages a more proactive approach to learning.
