

School of Pharmaceutical Sciences recently organized industrial visits to various prominent pharmaceutical industries for the students of B. Pharm, D. Pharm, M.Pharm and Pharm D, providing students with invaluable real-world exposure and hands-on learning. This initiative aimed to bridge academic knowledge with practical industry insights, enabling students to explore different facets of the pharmaceutical industry.

During the visit, students had the opportunity to observe various production, quality control, and research and development processes firsthand. They engaged with industry professionals who shared insights into current pharmaceutical practices, regulatory requirements, and emerging trends.

Professor Divya Juyal, emphasized the importance of such visits, noting that they play a critical role in enhancing students' understanding of the industry. She remarked that these experiences are instrumental in shaping future pharmaceutical professionals by giving them a practical perspective on the concepts they learn in class.

All the visits are well organized and coordinated by the Industrial visit and Placement Coordinator Dr Jyoti Maithani Kalra.

The students actively participated, interacting with industry experts and gaining exposure to advanced technologies and methodologies used in the field. They found the experience highly enriching, as it provided them with a clearer picture of career possibilities and the skills needed in the industry.

Such visits are expected to continue as an integral part of the School of Pharmaceutical Sciences' curriculum, fostering industry-academic collaboration and better preparing students for their future roles in the pharmaceutical sector
