Introduction

Community health centre is established to cover 1,20,000 population in the plains and 80,000 in tribal and hilly areas.

Community health center is established in each community development block, each community has Inpatient department, X-ray room, ultrasound room, labour room, OT and dental facilities. This work has a referral centre for four PHC. The community health centre provides secondary level of health care in rural area.

About the visit

In this visit students visited the physical setup and collected informations regarding functions, family planning counsellor, staffing pattern, services and schemes provided by CHC, Raipur. The head of CHC is DR. Pratap Singh Rawat (Chief medical officer).

The Community health center consists of 30 bed which included emergency department for Road traffic accident cases, antenatal and postnatal cases, first aid and dressing.

Labour room sister in charge Mrs Aruna has given orientation to our students and she given information about the entire working of Community health center. Then ante-natal counsellor Mrs Sunita explained about ante natal and post-natal facilities available in community health center, Adolescent girls support staff deliver information about various activities carried out in community health center for adolescent girls. Finally, MBBS interns students posted in emergency unit has given information about different cases attending Community health center.
